Do's and Don'ts

Do's

Ask for consent: Always check with people before snapping their photo, especially in group or paired shots.

Focus on memories: Capture genuine candid moments, laughs, group activities, and scenic views that highlight your shared experience.

Be mindful of your count: You have 15 photos, so make each snapshot count by focusing on meaningful highlights.

Keep it inclusive: Take pictures that celebrate everyone and make participants feel comfortable and included.

Don'ts

Avoid non-consensual shots: Don't take or upload photos of anyone who has asked not to be photographed or looks uncomfortable.

Skip inappropriate content: Refrain from capturing explicit, dangerous, overly private, or unsafe behavior.

Avoid distasteful or unflattering moments: Steer clear of embarrassing photos taken without permission, compromise-inducing poses, or photos intended to mock or poke fun at someone.

Don't waste frames: Avoid taking repetitive, blurry, or accidental shots so you don't run out of your limited 15 photos.
